PROFILE

Self-employed AI & Full-Stack Developer with 2+ years of hands-on experience building, deploying and improving real-world AI applications and SaaS products. Strong practical experience across React, Python, FastAPI, Supabase/PostgreSQL, AI API integration, authentication, dashboards, analytics and cloud deployment.

EXPERIENCE

Self-Employed — AI & Full-Stack Developer

2024 – Present

- Independently designed and shipped multiple production-ready AI and SaaS applications from concept to deployment.
- Built responsive React/Vite interfaces and FastAPI backends with Supabase/PostgreSQL data and authentication workflows.
- Integrated AI APIs, including Groq, to deliver intelligent assistants, learning tools and financial insights.
- Implemented dashboards, analytics, transaction workflows, authentication and user-facing product features.
- Handled deployment, debugging, API integration and ongoing product improvements across Vercel and Render.
